Support the American Taxpayers' Bill of Rights: Sign the Petition

March Campaign: Support the American Taxpayers' Bill of Rights

Because federal spending and the bureaucracy are out of control, an **American Taxpayers' Bill of Rights** is necessary to bring fiscal responsibility to Washington, D.C. We applaud the Republican Study Committee (RSC) for advancing this proposal that would force government to live within its means with these 4 crucial components:

1. Spending caps to stop out of control budget growth.
2. Preserving Social Security money just for Social Security, not for a Congressional slush fund.
3. Sun-setting the entire federal tax code to hold budgets accountable to outcomes.
4. A balanced budget without raising taxes.

As concerned American taxpayers, we hereby sign this petition urging those seeking our country's highest office to act responsibly by publicly endorsing the RSC's American Taxpayer Bill of Rights.

We will deliver the petition to U.S. Presidential Candidates!
